School of Arts, Design and Architecture
Po-Box 31000, FI-00076 Aalto

Dear colleagues,

With the present letter I wish to recommend the application of Professor Archana Surana, President of ARCH Educational Society, Jaipur, to become a member of the Cumulus Executive Board.

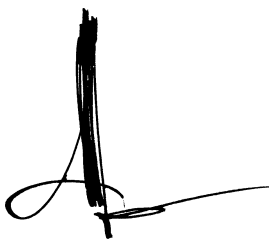

She is representative for the design education system of India and of women leadership. In addition, she has always nourished our conversation thanks to her empathic and positive way of being and her human values, which meet our own vision of resilience and social innovation.

I see Archana Surana's greatest strengths are her proactive, entrepreneurial, and organisational capacities and her abilities to network, collaborate, co-create, and communicate. She has an astonishing reservoir of energy, which, I believe, will allow her to contribute to the tasks as an Executive Board member in an active way.

These abilities I feel could be potentially invaluable on the Executive Board of Cumulus for achievable and practical contributions to enable and evolve.

As a full member of Cumulus association, I recommend and support Archana Surana's candidacy for being a member of the next Executive Board.
