

Recommendation Letter

Prof. Adam de Eyto

Dear Members of the Cumulus Association Secretariat,

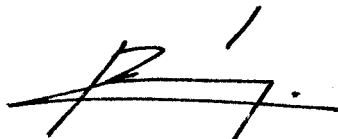

I warmly support the application of Professor Adam de Eyto to join the Cumulus Executive Board VIII, for the 2022-2025 term.

As Head of Design Limerick School of Art & Design (LSAD) at Technological University of the Shannon: Midlands Midwest (TUS), Adam de Eyto represents an internationally acknowledged Irish design education institution. He joined LSAD in January 2021 where he works with a dedicated team of academics and researchers, delivering undergraduate & postgraduate programs and research in a full range of Design disciplines. In his prior role, Adam was the Head of School of Design at The University of Limerick and a lecturer in Product Design. Adam's research expertise and interests span Design for Sustainability, Design Education, Soft Product Design - Wearables, Regenerative Design, Transdisciplinary Education, and Design for Health.

I have known Adam over the last years as a board member at Cumulus. Through his participation on the board he has contributed to the positive development of Cumulus in the last 3 years. Adam has a holistic and broad understanding of design, and is passionate about design as a powerful approach to problem solving and as a catalyst for positive social and environmental change. Being inspiring and proactive, Adam is really a good person, honestly curious and interested in diverse things. He speaks some Spanish and easily adapts and connect with people from different cultures, sharing and developing solutions and strategies with good spirit and without losing the sense of humour.

We really appreciate his current role as its Treasurer, especially now when Cumulus faces a complex transition to become an independent association. Therefore, we are happy to recommend him, supporting his candidacy for the Cumulus Executive Board VIII. Surely, he will continue to make constructive contributions to the further development of Cumulus.

Yours sincerely,

Rodrigo Ramírez
