

Paris 28/02/25

Dear Cumulus members, Dear secretariat,

I am Natacha Lallemand, I am French and I have been working for 20 years as head of international and a teacher in a fashion and design college in Paris. I am a peaceful and social person, cherishing books, writing and music.

I like team work and international backgrounds.

My background is a PHD in literature but I chose to devote my career at the heart of creativity in a design college where I met Cumulus from the beginning. In my daily work, I organize international, partnerships students and academic exchanges and accompany international events.

I was honored to be elected a board member in 2022 and I was so happy in this mission that I am re-applying for CEB9 ; I wish to continue this journey and my initiatives, more precisely with the actions towards the visibility of students within the association. My angle is inclusion and transversality, and wish to see more schools, universities and more generally partnerships from the under represented continents in our community.

I here submit my application to you, and thank you for your time

All my best regards,

Natacha Lallemand
