Subject Recommendation Letter Prof. Anna Meroni

Delft University of Technology

Faculty of Industrial Design Engineering

CUMULUS International Association of Universities
and Colleges of Art, Design and Media

Address:
Landbergstraat 15
2628 CE Delft
The Netherlands

To whom it may concern,

On behalf of the faculty of Industrial Design Engineering at Delft University of Technology, we are pleased to highly recommend Prof. Anna Meroni, Deputy Dean of the School of Design at Politecnico di Milano, for the Cumulus Executive Board (2025–2028).

Anna Meroni represents an institution with which we have been collaborating for a long time in an effective, constructive, and highly rewarding manner. Since assuming the role of Deputy Dean of the School of Design, she has actively endorsed, supported, and fostered this collaboration—strengthening our partnership and enriching it with new initiatives.

We have found in Prof. Meroni a reliable and trustworthy partner with whom we can explore new opportunities and exercise creativity in designing innovative ways to work together. Moreover, she is remarkably pragmatic in turning ideas into reality and demonstrates a strong dedication to service.

Her commitment to sustainability, collaboration, and dialogue is outstanding and makes her an ideal candidate for the Cumulus Executive Board. We believe she will effectively represent the interests of the global community of design schools that Cumulus embodies.

For these reasons, we strongly support the candidacy of Prof. Anna Meroni for the Cumulus Executive Board.

Best regards,

Prof. dr. ir. Caspar Chorus

Dean
Faculty of Industrial Design Engineering
Delft University of Technology
