

2025 February 19

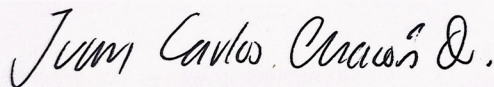

To the Cumulus Secretariat

It is with great enthusiasm that we, Chiba University, a Full Member of Cumulus, recommend Alessandra Perlatti for the position of Cumulus Executive Board Member.

We have had the privilege of collaborating with Universidad de Monterrey on numerous initiatives, including a collaboration since 2015 between our universities through the PULI Program (Post Urban Living Innovation Education and Research Program), which has involved joint research, student visits, study trips and a true international collaboration. Throughout this time, we have witnessed their exceptional leadership, innovative thinking, and dedication to advancing art and design education. Their ability to foster collaboration and drive impactful change makes them an ideal candidate for this role.

We are confident that Alessandra Perlatti will contribute significantly to Cumulus' mission and vision, and we fully support their candidacy.

Sincerely

Juan Carlos Chacon Quintero
Assistant Professor
Data Science Faculty and Design Department
Chiba University
