Cumulus General Assembly

I warmly support the application of Director Roberto Iñiguez Flores for the Cumulus Executive Board - 2025-2028.

Since 2003, Roberto has served different roles in our institution: from professor to Dean of the School of Architecture, Art and Design, and currently Associate Provost for Academic and Faculty Affairs. We value his proactive leadership, integrity, knowledge, and contributions to the art and design education and research community.

If Roberto is elected to serve for a second term on the CUMULUS Board, I am sure he will fulfill his duties with great responsibility, excellence and continuity. He will be a valuable colleague who leverages his skills and ideas to serve the CUMULUS community and seize Tec resources.

Tec's international networks and its strategic geographical position in Latin America will also play an important role in the activities of CUMULUS, contributing to the diverse variety of university peers to promote its objectives, and ensuring that both institutions grow and impact the rapidly evolving world.

Our institution recognizes the outstanding trajectory of CUMULUS and holds the opportunity to have Roberto in a leadership role as a great honor. He will receive our full support, as we partner to create a more conscious and sustainable future for all.

Best regards,

Juan Pablo Murra Lascurain
Rector
